

Time Line

Construct a time line of world history events that occurred between the outbreak of World War I in 1914 and Signing of the Treaty of Versailles in 1919. You will find the information you need in the reading for chapter 7, but may also look more information up online if you choose.

Criteria: Your Time Line should include all of the following:

1. A minimum of 10 events from the time period listed above.
2. All dates between 1914-1919 entered into the time line approximately to scale (i.e. don't bunch all of the events from 1914-1917 in the first 3 inches and use the whole rest of your space for 1918-1919.)
3. NEATLY illustrate 5 of the events listed on your time line. Illustrations should be easily recognizable as representations of the events.
